

ROTARY DRUM MOWER

Product Details

Rotary Drum Mower

Mounted type mower which is driven by tractor power take-off. It is manufactured in two types as mechanical and hydraulic. Rotary Mower chops every type of grass, herbs, different pasture plants and other plants that grow on the ground. The discs are very close to the ground, thus it heightens the productivity. It crops the herbs in such a way that it dries easily and is collected easily. It gets the move from the P.T.O. shaft and makes the chopping by the help of knives turning on the mower.

Tecnical Features	Units	Models			
		ARM125	ARM145	ARM165	ARM185
